**RE: Requesting Ad below to be included in the "Job Opportunities" section of your website for Mentorship, Residency, Practicum, Internship in QEEG Based Neurofeedback - Paid with benefits:**

**Social worker, Counselor or Clinical Psychologist, license eligible in Arizona to do diagnostic assessments and testing. You will learn to read Quantitative EEG topographic brain maps from four databases and how to utilize them diagnostically. You will become an expert at utilizing numerous neurofeedback systems such as Brain Master, Neuropathways, PZOK, ROI, SW Loreta and Smart Mind. We work with all disorders, including strokes, epilepsy, Autism/Asperger's and TBI's. In addition, this involves learning how to record, process brain maps, develop treatment plans and the hands-on of setting up clients with their specific treatment plan and monitoring their progress. You will obtain a Certificate of Completion in QEEG based Neurofeedback. It customarily takes a one-year commitment.**

**Mr. Robert Gurnee, LCSW, the Director has been president of ISNR, the Neurofeedback Division of AAPB and was on the Board of the International Society and QEEG Certification for nine years and has presented at over forty international conferences on QEEG Subtypes of different disorders and their treatments.**

**Neurofeedback Technician - Paid with benefits:**

**Learning how to record QEEG data and create brain maps from four different databases Complete brain maps, treatment plans and learning to set up patients for Neurofeedback sessions with the use of eight different Neurofeedback systems in line with treatment Protocols. Learn how to track progress with system data, rating scales, re-testing and remapping. Obtain a Certificate of Completion at the end of one year and also a BCIA Certification.**
