Neurofeedback-Technician

BIOFEEDBACKWORKS; BEHAVIORAL HEALTH PRACTICE (Herndon, VA)

We are a small mental health clinic looking for a neurofeedback technician with licensure or a qualified individual interested in this emerging field of neuropsychology.

Excellent opportunity for resident or graduate students interested in psychology/psychotherapy. The ideal candidate will perform neurofeedback, biofeedback training, and possible counseling/psychotherapy working with a variety of clients who have diverse diagnoses (adults and children).

The candidate should have excellent communication skills, be extremely comfortable working with software and computers, detailed oriented, capable of prioritizing tasks, and work independently. *Preference will be given to a BCIA certified professional or one who is willing to complete certification within 1 year*. Training is provided.

**Part time**: 2-3 days per week, 6-8 hours (some flexibility); Office hours are 9:00 a.m. to 7:00 p.m. Compensation is based on experience.

**TECHNICAL SKILLS:**
- Strong computer skills: experience with Windows, Medisoft, Microsoft Word, and Excel.
- Applications: Brain Master, PirHEG, LENS, qEEG Pro, sLoreta, Medisoft.
- 10-20 system for electrode placements.
- qEEG recordings.
- Knowledge of operant, classical conditioning and positive reward to impact behaviors.
- General knowledge of basic brain anatomy and function.

**FRONT DESK MANAGEMENT:**
- Respond to client inquires, emails and recorded messages.
- Greet clients, schedule appointments, and manage scheduler (Medisoft).
- Manage forms and client files.
