Job Title: Neurofeedback Technician
Hours: Part-time with potential to move to full-time as practice grows
Starting Salary: \$15.00 per hour with potential for growth
Location: Atlanta/Sandy Springs, GA
Start Date: 6/7/2021
Contact: Dr. Laura Hanson drlaura@drlaurahanson.com

Looking for a positive, enthusiastic neurofeedback technician to join the team at Connect My Brain <https://connectmybrain.com/>. Connect My Brain is a brain-based health center. Our primary focus is with children with developmental delay. We also serve those who have suffered a brain injury or adults who are ready to get their life back. Our mission is to help kids get their childhood back, help families enjoy “family-time”, and see adults conquer their dreams. We have a 3-tier approach: mechanical/chemical and Brain!

As a neurofeedback technician you will work directly with patients to provide HRV/biofeedback and neurofeedback training under supervision of Dr. Laura Hanson. Responsibilities and expectations are as follows:

- ✓ Work well as a team member
- ✓ Running neurofeedback training sessions for patients according to parameters set by Dr. Laura Hanson
- ✓ Record qEEG data using BrainMaster/Discovery hardware and software
- ✓ Complete clinical notes for each office visit
- ✓ Communicate openly with all team members
- ✓ Enjoy working with children
- ✓ Communicate with BrainMaster technical department when technical issues arise
- ✓ A background in neurofeedback is a plus, but training is provided by a BCIA certified provider
- ✓ BCIA certification in neurofeedback or willingness to get certified in 6 months. Training and supervision will be provided as needed
- ✓ Because of the level of investment and training provided, we are asking for at least a one-year commitment

If interested, please email your resume to Dr. Laura Hanson drlaura@drlaurahanson.com
