

**Internship Opportunity: Neurofeedback Trainer****Organization:** NESTRE Health and Performance**Location:** Lake Nona Performance Center, Orlando, FL**Type:** Part-time (weekends and evenings may be required)**Start Date:** Immediate**Point of Contact:** Dr. Brian Bachelder – [brian@nestrehealthandperformance.com](mailto:brian@nestrehealthandperformance.com)**About NESTRE**

NESTRE Health and Performance is a neuroscience-driven cognitive training and mental performance company that leverages cutting-edge research, neuroplasticity science, and machine learning technologies to help individuals optimize how they *get better, feel better, and perform better*.

We are pioneers in **Neuroplasticity Strength Training**, delivering customized cognitive training solutions to a diverse population including professional athletes, military special operators, corporate leaders, and individuals seeking cognitive recovery or peak performance.

**Internship Overview**

We are seeking a **positive, detail-oriented, and coachable Neurofeedback Trainer (Intern)** to join our dynamic team. You will work hands-on with clients to support the delivery of neurofeedback sessions under the guidance and supervision of certified staff. This role offers a unique opportunity to train in applied neuroscience and impact lives through transformative cognitive training programs.

**Core Responsibilities**

- Set up and calibrate EEG head caps with accuracy and efficiency
- Ensure and maintain signal quality throughout neurofeedback sessions
- Conduct artifact rejection and basic EEG data editing post-session
- Maintain accurate, timely, and confidential client session notes
- Support client engagement through follow-up communications and scheduling
- Adhere to NESTRE's ethical and procedural standards

**Training & Modalities**

You will be trained in and support the delivery of:

- Power-based neurofeedback
- Connectivity-based neurofeedback  
*Additional cross-training in cognitive protocols and systems may be available.*

**Qualifications**

- BCIA certification required or become BCIA certified within 12 months of hire
- Passion for human performance, neuroscience, and helping others thrive
- Strong communication skills and a client-centered mindset

- Reliable, punctual, and comfortable working with diverse age groups
- Experience in high-performance, sports, or wellness environments is a plus
- Ability to maintain confidentiality and uphold ethical practices

### **What You'll Gain**

- Direct mentorship from experienced neuroscience professionals
- Practical training in cutting-edge neurofeedback techniques
- Opportunities to work with elite performers and high-impact client populations
- A collaborative environment that values innovation and personal growth
- Exposure to a fast-growing mental and cognitive performance industry

### **Ready to Make an Impact?**

Join us in advancing the future of brain health and human performance.
