

## **Job Opportunity in Dubai, United Arab Emirates**

### Neuro Technician Position Opening for neurofeedback.

German Neuroscience Center [www.gncdubai.com](http://www.gncdubai.com) is looking for a Neuro Technician with particular interest in providing neurofeedback services.

The German Neuroscience Center is the leading clinic for Psychology, Psychiatry and Neurology in Dubai for over 15 years.

Working as a Neuro Technician you will record qEEG brain maps and provide neurofeedback services (power training, 4-19-ch Z-score including sLORETA, ISF). You need to be comfortable working with all age groups and familiar with mental health neuropsychological symptoms, concerns, disorders. We work with a wide variety of patients seeking collaborative mental health services by counseling and neurofeedback therapy. We need a motivated individual who is adept at maintaining accurate patient records.

#### Responsibilities include:

- Conducting QEEG,
- Provide neurofeedback training sessions for individual clients.
- Participate in meetings with supervisors and/or mentors to review client's progress, concerns, and updated QEEG maps and treatment plans.
- Maintain supplies and equipment for optimal client care.
- Perform administrative tasks, including maintenance of client's medical records, and email & phone support for clients.

#### Qualifications:

- Previous training in neurofeedback and BCIA certified or willing to be certified in a timely manner is an advantage.
- Know and adhere to ACA Code of Ethics.
- Our ideal candidate is:
- Highly organized and detail oriented.
- Empathetic, patient, and continual growth in cultural humility.
- Motivated to continue learning and growing in the field of mental health/wellness.
