

Join Our Innovative Practice Focused on Natural Treatment for ADD/ADHD

Our thriving psychology practice, the Center for ADD, in Scottsdale, Arizona, is seeking a dedicated and passionate Clinical Associate to join our team.

We specialize in assessing and treating ADD/ADHD using cutting-edge, non-medication-based interventions. Our commitment to natural treatments, such as brain mapping and neurofeedback, sets us apart and allows us to offer lasting results to our patients.

Key Responsibilities:

Assessment and Treatment: You will primarily focus on diagnosing and treating ADD/ADHD in both children and adults, along with other psychological conditions such as anxiety, depression, autism, learning disorders, TBI, and occasionally, sports performance.

Working with Innovative Treatments: You must be able to utilize and contribute to our suite of state-of-the-art programs and interventions, maintaining our practice's emphasis on non-pharmacological, natural treatment methodologies.

Learning Advanced Techniques: Gain proficiency in and deliver treatments using neurofeedback, brain mapping, and other innovative interventions that align with our philosophy of drug-free, natural care.

Experience and Qualifications:

Required:

- **Educational Background:**
 - Master's degree or higher (Ph.D., Psy.D.) in Psychology, Counseling, or a related field.
- **Licensure:**
 - Must be fully licensed to practice in Arizona or in the process of obtaining licensure.
- **Experience:**
 - Has worked with patients in a clinical setting.
 - Has or will pursue a BCIA certification upon hire
- **Personal Attributes:**
 - Looking for a candidate who is not only dedicated to their profession but also personable, and capable of building strong rapport with patients and colleagues alike.
 - A strong interest and openness to learning and providing natural treatments, including but not limited to brain mapping, neurofeedback, and alternative non-drug interventions.

Preferred:

- **Specialized Skills:**
 - A background in ADD/ADHD or learning disorders is preferred.
 - Prior experience in therapy and/or psychological evaluations with children, adolescents, and adults is highly preferred.
 - Experience with neurofeedback therapy, biofeedback, brain mapping, and similar technologies would also be helpful.
- **Partnership Potential:**
 - Possessing the entrepreneurial spirit and desire to become an equity partner in the practice, with options for an earn-out over time or a buy-in arrangement.

Why Join Us?

Be Part of a Leading Practice: Our practice is at the forefront of natural treatment modalities for psychological conditions, providing a unique opportunity to specialize in high-demand, cutting-edge therapies.

Growth and Development: We offer significant professional growth opportunities, including the potential for partnership and ownership for the right candidate.

Supportive Environment: Work with a supportive, knowledgeable professional dedicated to making a real difference in our patients' lives through innovative, evidence-based treatments.

If you are passionate about making a tangible difference in the field of psychology and are drawn to natural, technology-assisted therapies, we would love to hear from you.
