

Neurofeedback Practitioner/Director position available with potential for eventual partnership/ownership In Santa Cruz, CA.

Santa Cruz Neurofeedback Center is looking for the right person who is BCIA certified and skilled in neurofeedback in QEEG analysis, for a management track position in a well established, highly successful, and profitable neurofeedback center.

Santa Cruz Neurofeedback has been operating since 2006 and has earned an excellent reputation among clients and local practitioners, serving over 1000 clients. The neurofeedback director, Langdon Roberts, has over 25 years of experience in a variety of neurofeedback approaches and is looking forward to sharing that experience with a highly motivated, well skilled therapist to support their highest level of success as the new clinical and neurofeedback director.

The majority of our new clients come through referrals from satisfied clients and practitioners from many disciplines. We are, by far, the most successful neurofeedback practice in Santa Cruz County and come up first in online searches. Our office is in a great location, with two training rooms and a beautiful creekside view.

We are offering a part to full time position, with the potential of transitioning into a flexibly-structured 1-5 year partial or full buyout plan, allowing the right professional to step into a thriving business with an existing client base, a well-trained staff, highly-effective technology, well-tested and documented systems for client and practice management, a clear path to partnership or ownership, and an excellent income.

We're looking for a licensed Psychologist, LMFT, LCSW, LPCC, RN, or other mental health or functional medicine provider who is passionate about neuroscience-based mental health and ready to transition into leadership of a great team.

If you are interested in exploring the possibilities, please contact Langdon Roberts at Langdon@scneurofeedback.com or 831-239-6353, or feel free to check out our practice here: <https://santacruzneurofeedback.com/> Please do not call the office or drop in without speaking with Langdon first.
