

TRS Neurofeedback—Neurofeedback technician Job Description

We are a Brain Health, Counseling and Neurofeedback Practice with offices located in Lakewood and Denver Colorado. We help our clients recover from anxiety, depression, ADHD, mood issues, head trauma, autistic spectrum issues, PTSD, and addictions. Our practice offers neurofeedback, counseling and other non-drug approaches to enhancing emotional wellness & health.

We are not a residential treatment center and do not work with acutely severe client issues.

We are seeking an intelligent and caring person to train as a neurofeedback technician and work directly under the supervision of Yvonne Tate, Ph.D., LPC, BCN, QEEG-D. Dr. Tate has been doing Neurofeedback for over 20 years and has developed and teaches the BCIA certification course in Neurofeedback since 2015. She has been board certified since 2006 and has worked with Jay Gunkelman, QEEG-D since 2015 learning raw EEG and gaining skill in accurately interpreting EEG. She has a passion for teaching and passing on her knowledge and skill. This employment experience will allow you to learn and grow and move towards expertise in the field of Neurotherapy. Dr. Tate encourages and helps her employees start their own businesses when they are ready, and she has an urgency and passion to see the field of Neurotherapy grow and flourish across the country. Interest in psychology, optimizing brain function, and emotional wellness is required for this position. **Prior neurofeedback experience not required. We will train you to be an outstanding neurofeedback technician! Individuals who are Board Certified in Neurofeedback (BCN) or are seeking certification are preferred.**

This position will start as part time contract work. Hours are based on our day to day schedule and we are flexible regarding the days and times you are able to work. Some evenings and Saturdays will be required. As a contractor, you will be able to take time off whenever needed because we have a team of staff that work together and cover for each other. Students in psychology or counseling are encouraged to apply. We can work around your schedule. We also welcome licensed counselors or individuals working toward licensure to apply. There are options to also do therapy in our extra office spaces and you will have a source of referrals from our Neurofeedback clientele. Pay varies based on experience and credentials.

We are looking for someone with the following qualities:

- Passionate for people, have an interest in brain health and a curiosity for new & innovative therapies and treatments to improve brain function.
- Either has previous experience as a neurofeedback technician or is willing to be trained
- Must have a desire and ability to work with kids and adults
- Good with people and creating a relaxing environment

- Firm commitment to regular attendance and punctuality
- A confident person, who thinks outside of the box
- A self-starter, who can see this position as an opportunity, not just a paycheck
- Must have a great personality for greeting customers while developing a warm and friendly connection with our clients.

More About You.....

- You have a professional and friendly personality with strong organizational skills.

- You have a genuine interest in health & wellness and you enjoy watching people change their lives and become healthy.

- You can multitask and prioritize projects with ease
- A can-do attitude is key: you are accountable, organized, and follow-through
- You have a strong sense of ownership & pride in providing outstanding customer service and an excellent product
- You are flexible and hardworking.
- You work well with other staff and know how to collaborate and resolve conflict in a healthy manner
- Ability to engage with people of all backgrounds with a positive attitude and warmth.

We are an equal opportunity employer and value diversity. All employment is decided on the basis of qualifications, merit and business need. Must be able to pass a background and drug test.'
