

Neurofeedback Trainer

NESTRE Health and Performance

Location: Orlando, Florida

Hours: Full-time

Start Date: ASAP

Contact: Dr. Brian Bachelder at Brian@nestrehealthandperformance.com

About Us

NESTRE Health and Performance is a mental and cognitive strength training solutions company that leverages neuroscience and big data/ML technology to personalize how people get better, feel better, and perform better.

NESTRE offers cognitive assessment and training and is the first Neuro-Strength company to leverage the science of neuroplasticity, which states the brain can change and is in a constant state of changing, learning, responding, and adapting. At NESTRE, you can tap into your own ability to heal, recover, and strengthen yourself both mentally and cognitively.

Solutions at NESTRE are results-driven and successfully utilized by elite performers including military, NFL athletes and coaches, Olympians, and business executives.

Position Overview

We're seeking a positive, enthusiastic neurofeedback technician to join our dedicated team. In this role, you'll work directly with clients to provide neurofeedback training under the supervision of our staff.

Core Responsibilities

- Set up and calibrate EEG head caps with accuracy and efficiency
- Ensure and maintain signal quality throughout neurofeedback sessions
- Conduct artifact rejection and basic EEG data editing post-session
- Maintain accurate, timely, and confidential client session notes

- Support client engagement through follow-up communications and scheduling
- Adhere to NESTRE's ethical and procedural standards

Training & Modalities

- You will be trained in and support the delivery of:
- Connectivity-based neurofeedback
- Additional cross-training in cognitive protocols and systems may be available.

Qualifications

- BCIA certification required or become BCIA certified within 12 months of hire
- Passion for human performance, neuroscience, and helping others thrive
- Strong communication skills and a client-centered mindset
- Reliable, punctual, and comfortable working with diverse age groups
- Experience in high-performance, sports, or wellness environments is a plus
- Ability to maintain confidentiality and uphold ethical practices

What We Offer

- Comprehensive training in cutting-edge neurofeedback techniques
- Supervision by experienced and certified professionals
- Opportunity to work with diverse populations and age groups
- Collaborative, supportive team environment
- Professional development opportunities

Ready to Make a Difference?
