

**Position Opening for a Staff Clinician**  
**Trained in Psychotherapy and Neurofeedback**

**Focus Centers of Asheville, PLLC**  
**Asheville, N.C.**

Focus Centers is celebrating 20 years of growth and vitality in the beautiful Blue Ridge Mountains of Western North Carolina. We are a small team of ten N.C. professionals who enjoy working together and providing our community with a high level of specialized mental health service.

Focus Centers operates an outpatient mental health clinic providing psychotherapy, neurofeedback, biofeedback and qEEG brain evaluations for ages five and up. The Clinicians at this clinic are all NC State licensed as psychotherapists, additionally trained and experienced in neurofeedback.

This clinic also operates “on-campus” labs in schools, child and adolescent residential treatment facilities, recovery programs, adult ASD residential programs, and senior citizen life care communities.

Focus Centers has emerged from the COVID crisis with all of our staff returning to work and maintaining full schedules. We are now conducting a search for a new clinician to help us meet an increasing demand from the community for our services. Clinicians are paid based upon their experience and qualifications. The position that is currently available is for a full-time staff clinician in our Asheville outpatient clinic. The clinic is open Monday through Friday from 9am to 6pm.

Focus Centers embraces a multi-modal approach to combining psychotherapy and neuroscience applications with the intention of creating strong and lasting outcomes to address today's mental health. We have staff trained in providing Neurofeedback, Biofeedback, qEEG Evaluations, Photic Entrainment and Cortical Electro-stimulation.

Preference is given (but not required) to those applicants who have completed coursework in neurofeedback, or have BCIA certification in biofeedback and/or neurofeedback. For more information, please visit our website, [www.focuscentersofasheville.com](http://www.focuscentersofasheville.com) to learn more about our staff and our center.
