

PMDB ACCREDITED DIDACTIC PROGRAMS

All programs listed are accredited to provide 24 hours of education (plus four hours required practicum) to fulfill the didactic requirement toward BCIA Pelvic Muscle Dysfunction Biofeedback Certification. **Each program is responsible for the content, pricing, schedule, and all other information for their course. Please contact the individual program, not BCIA, should you need further information.**

Many of the training programs listed below are accredited by a national professional organization such as the APA. Please visit with each provider to see what accreditations each program carries if this is important to you when making your course selection.

You are required to submit a program evaluation (www.surveymonkey.com) within 30 days of the completion of the course in order to get didactic credit toward certification. All information will be summarized and shared with the specific training provider with no link to a specific person.

Behavioral Medicine Research & Training Foundation*

Port Angeles, WA
