

## **Exam Item Writing Form**

Certificants may write exam items and receive continuing education credit hours. Material for these questions should be taken from the articles listed on the Core Reading List. One half hour of accredited continuing education will be given for reading an article and preparing an examination question. The examination item should be comprised of a question, correct answer and three distractors. A maximum of 20 hours per 4 year certification period is allowed (i.e. 40 questions maximum). Please make copies of this form for submitting test items.

Question: (Premise)

**Choice**: (Correct answer first)

| 1.  2.  3.  4.  Reference:  (Please list the reference including title, date, journal, etc.) |  |     |      |  |                                   |                                       |            |                      |                            |
